

Cases

Santa brought me a rather nice mains charger with four outputs for use at the field. I wanted a case to carry it around in and found a reasonably priced one on eBay, branded Roc cases. When it arrived the company included a catalogue. You need to flip to page eight to find the cases. If you don't, you will be tempted by the machine tools at remarkably low prices. The company is The Allendale Group in Hoddesdon Hertfordshire. www.allendale-group.co.uk The website is enormous and it's a bit difficult to find what you want so it's probably best to buy through eBay.
